

## **WEB SERVICES**

A website is an investment in your business. It is the best advertising you can possibly have - a 24-hour-a-day billboard/brochure/info-pack stuffed with everything you can possibly want your customer to know about your business. If you include e-commerce, a website can also bring in actual dollars at any hour of the day from anywhere in the world. That's why a quality, professionally designed and developed website is a necessity for business today.

The return on an investment like a quality website can be hundredfold. There is no overstating to importance of a quality professional website. CT Graphics vows to provide to you the best web services and customer service possible in order to protect your investment.

### **WebMaster Services**

If you're too busy to keep up your website, we can do it for you! We can update your website at any time you choose, based on your input and expectations. It doesn't even need to be a CT Graphics website!

WebMaster Services: \$45 per hour

### **Web Hosting**

CT Graphics has its own web hosting to get your website up on the internet. Web hosting is like renting a tiny piece of the internet so that the public can access your site. Our hosting costs \$100 per year per site.

### **Domains & Email**

Domains are the [www.whatever.com](http://www.whatever.com) you type in to get to a website. Email is a virtual "mailbox" that has a name and lives at that domain. Owning a domain and an email address is a little like renting a small piece of the internet that you can use. We offer domains at \$25 per year, and email addresses at that domain for \$100 per year, per address.

## **Additional Services**

Do you want a great and professional website, but have no photos or don't know how to write? No fear! We have people that can assist you.

Additional Web Services: \$45 per hour
